

DIEGEL TO 'FESS UP IS BELIEF

Those Interested State That He Will Yet Make Confession

PROSECUTION CONFIDENT

Convicted Man Faces Probable Fifteen Year Prison Sentence If He Makes No Statement.

Columbus, Aug. 25.—"There is absolutely no difference between the attorneys who have been representing Rodney J. Diegel. We have been working in unison, and in perfect harmony," said J. Connor of the firm of Belcher & Connor today, concerning the story that John Egan, Dayton attorney, and Diegel's personal friend, had disagreed with the others and had advised Diegel to make a partial confession.

"We have had a communication from Mr. Egan in Los Angeles in which he said that he never made a statement to the attorney general or any other person suggesting that Mr. Diegel make a confession in part or in whole. Somebody is not telling the truth," Connor said in referring to the published statements coming from the attorney general and the prosecutor's office than Egan before leaving had suggested that Diegel make a partial confession to secure clemency.

Columbus, Ohio, August 25.—John A. Egan, of Dayton, the personal attorney of Senate Sergeant-at-Arms Rodney J. Diegel during the recent probe of legislative scandals, has been named as a factor in the much discussed "confession" which the State's attorney and the court persist in believing was made before September 9, but which is denied with equal persistence by Diegel himself and his trial lawyers, Belcher and Conner, of Columbus, and Con. J. Mattern of Dayton.

According to rumors the extension of the present court term until September 9 was made, not to give Diegel time to prepare his confession, but to give John A. Egan time to reach Columbus from California, where he has been spending several weeks.

It is openly predicted that he will be here before the court term ends and that Diegel will agree to tell all at that time.

Attorney-General Timothy S. Hogan is authority for the statement that Egan approached him and Prosecutor Turner some time ago with a proposition that Diegel would make a partial confession if given immunity.

This was refused and since then those interested in preventing further disclosure of the corruption which is said to have existed in the Legislature have kept in close touch with Mr. Diegel, bringing every possible ounce of pressure to bear to insure his silence.

This gave rise yesterday to the rumor that actual coercion had been used to have Mr. Diegel give out an authorized statement saying that he knew of nothing to tell, that all the legislators were honorable gentlemen so far as he knew and that no corruption existed in the Legislature.

This was denied by Mr. Diegel himself, but the continued bearing of confidence by Attorney General Hogan and Prosecutor E. C. Turner, and their quiet belief that Mr. Diegel will tell what he knows when the time comes, had caused the belief that Mr. Diegel is telling the defense that he will keep silent in order to bring relief to himself from the terrific pressure being used to keep his lips sealed.

A new phase of the matter became known yesterday when it was discovered that plans of the state in the prosecutions do not leave Mr. Diegel facing a mere five year sentence, with a fine of \$500.

This is the maximum penalty for the charge upon which he was convicted and there was good authority for the statements that he had been induced to serve this term and stand firm with those legislators and lobbyists who have much to fear from his confession.

It developed, however, that Mr. Diegel faces a sentence aggregating 15 years and a fine of \$1,500. If this should prove true, Mr. Diegel would be nearly 60 years old by the time emerged from prison to resume his place in the world.

The certainty that he will not dare to face this fate at any price is said to be the source from which the state attorneys draw their great fund of confidence that Mr. Diegel will eventually break down and confess.

The triple sentence has its origin in the fact that Mr. Diegel is under two more indictments for the same offense, each of these being, in the

36 KILLED WHEN G. A. R. TRAIN GOES THROUGH BRIDGE

Manchester, N. Y., Aug. 25.—Thirty-six men are reported killed and 60 injured when a Lehigh Valley passenger train went through a bridge near here. Details as yet are very meager. The train was No. 4 eastbound, and carried many G. A. R. men from the national encampment at Rochester.

The train which was wrecked was made up of 14 cars and left Buffalo at 8 o'clock this morning. All of the cars were filled and because of the heavy traffic the train had two engines attached.

The latest report received says that four of the cars went over the bridge which is east of Manchester, and that they were badly smashed by the drop.

Railroad officials are rushing nurses and doctors from every available point and nearby farm houses are being transformed into temporary hospitals.

BIG STRIKE THREATENED

Chicago, Aug. 25.—With Julius Kruttschnitt, vice president and general manager of the Southern Pacific and high officer in all the Harriman lines, speeding westward in a special car, labor leaders gathering in Kansas City to decide on their final stand, and thousands of union men bombarding their offices with demands that they be permitted to strike, the industrial situation in the west today assumed a most critical phase. Labor leaders declare they are having great difficulty in holding their men in check and add that they can see nothing in the Kansas City gathering but a strike order for all shop employees of the system.

The main point at issue is that the demand of the unions that the railroads recognize the system federation instead of the separate organizations. This the railroads refuse to do.

Labor leaders declare that the Harriman lines could not stand a strike at this point. Officers of the roads declare that they could.

The employees who would be affected by the strike are as follows: car men, 12,000; mechanics, 7,000; boiler makers, 3,000; blacksmiths, 2,000; sheet metal workers, 1,000. Total, 25,000.

Chicago, Aug. 25.—Following the receipt of a telegram from members of the advisory board of the Harriman systems federation, declaring that the board could no longer prevent the Harriman shop employees from striking, President J. W. Kline of the International Order of Blacksmiths today sent a telegram to President Lovett of the Harriman lines asking that he grant a conference to the employees with a view of averting a general strike.

NO WORD OF ARTHUR MARPLE MISSING 1 MONTH

The case of Arthur Marple, the Newark boy who disappeared a month ago today remains as deep a mystery as it did at the time. All clues and theories have been carefully run out by the police and by his father, Charles Marple, without the remotest knowledge as to his whereabouts.

Mr. Marple stated this morning that he seemed to be farther from the discovery of his son than ever before, since all suspicions as to the cause of his disappearance and theories as to his whereabouts have failed to locate him.

NEWARK BOY IN BIG GAME COUNTRY

Leo Fallon of Los Angeles, Cal., a former well known Newark boy, was one of a party of five men from Los Angeles, who recently enjoyed a hunting and fishing trip of two weeks' duration in the mountains in Kern county, that state. They bagged one deer the second day after the camp was established, and was the only deer seen by the men during their stay in the wilds. They say the trout fishing in the vicinity of their camp was the best in the country, and they are planning a return trip next year.

EAGLES MEET IN CLEVELAND IN 1912

San Francisco, Aug. 25.—Today's count of the ballots cast by the F. O. E. delegates for candidates at last night's session shows that the regular slate was overwhelmingly elected and that Cleveland will be the scene of the next annual convention. Frank Herling of South Bend, was elected Grand Worshipful President, and Joseph Dowling of Dayton was named as one of the Grand Trustees.

EULOGY OF GOV. WILSON IN THE OUTLOOK

Significance Given It Because of Roosevelt's Connection With the Magazine.

New York, Aug. 25.—The Outlook of which Theodore Roosevelt is contributing editor will print in its current edition a eulogy of Governor Woodrow Wilson of New Jersey, from the pen of Henry B. Needham, who when Col. Roosevelt was president ranked as one of the "official press agents of the administration." New York politicians are wondering today if there is a political significance to this fact.

Colonel Roosevelt, since the defeat of his candidate for governor at the last election, Henry L. Stimson, now a member of President Taft's official family, has refused to take any part in Republican politics in this state. The man whom he most bitterly denounced at Saratoga, Wm. Barnes, Jr., is now chairman of the Republican state committee and he and his friends have made it plain that if Roosevelt wants to go to the next national convention of the party that elected him president, he will have personally to ask for that honor.

Friends of Wilson are much encouraged that he has "broken into" the magazine through which Colonel Roosevelt now reflects his opinions to the public. They believe it indicates that Roosevelt would not fight Wilson, proclaimed as a real progressive, should he get the Democratic presidential nomination. In this manner Wilson men say he would gain progressive strength in all of the western states should the Republican organization stick to the present plan and re-nominate President Taft.

Grover Cleveland's Daughter, Who Will Be Married Soon

Princeton, N. J., August 25.—The announcement that Miss Esther Cleveland, eldest surviving daughter of the late President Grover Cleveland, is to be married soon to Randolph D. West, a junior year student in Princeton university, has created considerable interest in college and

MISS ESTHER CLEVELAND

social circles here. Miss Cleveland, who was born about eighteen years ago while her father was president, is at Tamworth, N. H., with her mother, sister and two brothers at the summer home of the family. It is understood that the wedding will take place about October 15, and it is stated that Mrs. Cleveland's wedding present to the couple will be a bungalow which she is to build on her property in New Hampshire. Mr. West is a son of Professor Andrew West of Princeton, dean of the graduate school.

ATWOOD REACHES NEW YORK

Finishes Most Spectacular Trip in History of Aviation

WON'T GO TO BOSTON

Accident to Motor is First Trouble Since Leaving St. Louis Ten Days Ago.

New York, August 25.—With a flight of thirty miles in 56 minutes from Nyack on the west bank of the Hudson river to Governor's Island, upper New York bay, Harry N. Atwood this afternoon completed the most spectacular cross country flight in the history of aviation when he spanned the great territory between St. Louis and the Atlantic sea coast, breaking the world's record by 103 miles. Atwood's jaunt showed how perfect his control of the giant machine is. Jumping into the air from the top of Hook Mountain, where he was compelled to come to earth yesterday, because of an accident to his engine, he turned his machine south, and went directly over the center of Hudson and maintaining an altitude of between 100 and 200 feet steered directly for Governor's Island. He made the 1260 mile trip in actual time in the air of 28 hours and 23 minutes.

Nyack, N. Y., Aug. 25.—Rain that continued all night added to the eleventh hour troubles of Harry N. Atwood who was overtaken with ill luck when within sight of his goal after his remark the flight from St. Louis, and early today it appeared that he would be unable to start from Hook mountain for New York before this afternoon. The aviator appeared confident however, and showed no signs of dismay.

Defect in Engine.

Nyack, N. Y., Aug. 25.—Another delay incident to aviation brought disappointment to thousands of people along the lower Hudson River and in New York City yesterday, when Harry N. Atwood, in his record breaking aeroplane flight from St. Louis, failed to sail over New York and land at Sheepshead Bay, but instead, on account of a defect in his engine was compelled to land here, within 25 miles of his destination.

Atwood's position last night is 1240 miles from St. Louis and just 25 miles from the heart of New York. His actual flying time for the distance covered is 11 days, 27 hours, 45 minutes.

Despite his failure to land in New York, the day's sail of 109 miles down the Hudson river gave Atwood by 76 miles the world's long distance record finally held by European aeronauts.

Atwood's explanation of his failure to land at West Point, where the parade grounds were crowded with officers, cadets and citizens, was that he found the space allotted him too hampered. After sailing over the prospect, he rose again, sailed over the river and landed at Garrison, 50 miles from New York, where no one was waiting to greet him.

Atwood announced last night positively that he would not attempt to fly from New York to Boston after reaching the metropolis.

BALTIMORE TO GET NATIONAL DEM. CONVENTION

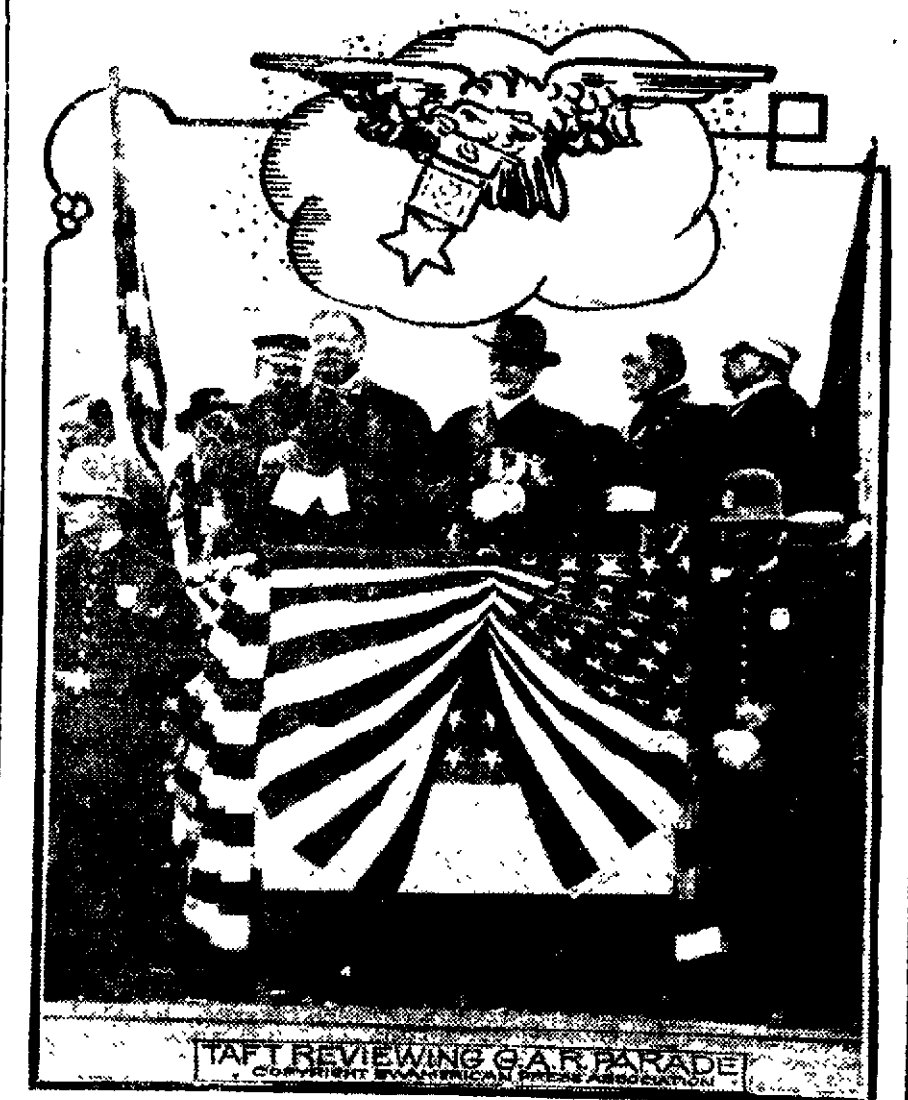

Baltimore, Md., August 25.—The Democratic National Convention of 1912 will positively go to Baltimore, according to a statement of a member of the National Committee who has made a canvass of the votes.

That Baltimore, through her activities has secured the pledging of a sufficient number of votes to land the convention is his emphatic assurance, based upon his inquiries in an effort to get the convention for his own city. Minneapolis and St. Paul, united in their efforts to get the big gathering of Democrats, have withdrawn from the fight, he said, after a secret inquiry had shown them Baltimore assurances of success. Louisville another strong contender, may also withdraw.

The news that Baltimore was scheduled to be the successful candidate did not leak out until a late hour yesterday.

The meeting of the National Committee will not take place until on January 1 next year when a date for the convention will be set and the place of meeting definitely decided.

TAFT REVIEWING G. A. R. PARADE WITH COMMANDER GILMAN, GENERAL GRANT AND THE OLD WAR HERO, SICKLES

TAFT REVIEWING G.A.R. PARADE

Rochester, N. Y., Aug. 25.—The historic moment at the Grand Army encampment was caught by the camera just as President Taft arose to review the parade of veterans. Standing with him at the front of the reviewing stand were Major John E. Gilman, commander in chief of the G. A. R.; General Frederick Dent Grant, son of the civil war commander, and General Daniel E. Sickles, who commanded the Third Army corps at Gettysburg, where he lost his right leg. Just behind the president, slightly to his right, stood Major Archibald Butt, his military aide. Thus the old army and the present establishment were represented on the reviewing stand while the grizzled boys in blue moved past and cheered the president.

THREE THOUSAND CHEER AS NEGRO BURNS TO DEATH

Parcell, Okla., Aug. 25.—As 3000 men, women and children stood by shouting their approval, Peter Carter, a negro, who had previously been captured by three members of his own race and identified as the man who last night attacked Mrs. Minnie Spraggins, wife of a farmer, was burned to death on a brush pile in the main street of Parcell at five o'clock yesterday afternoon. Deputy Sheriff Hayes and Under Sheriff Parris, who attempted to rescue the negro from the mob, were overpowered and locked in the courthouse.

Mrs. Spraggins was assaulted while alone in her home, one mile south of Parcell. After the deed, the negro set fire to the Spraggins home. Mrs. Spraggins' husband saw the flames while working in the fields and rushed to the house in time to rescue his wife. She declared Carter, who formerly worked on the Spraggins farm, had attacked her. Officers went to Carter's home and arrested him. He was turned over to a constable, but on the way to jail escaped.

Captured by Negroes.

When it became known the negro was free, farmers of the neighborhood organized and search was made. The negro was not found. Later he was captured by two of his own color. Carter was taken to the main street and in an instant many men and boys were gathering brush and placing it at his feet. At this juncture, Deputy Sheriff Hayes and Under Sheriff Parris arrived and pleaded with the mob to turn the prisoner over to the law.

Must Protect the Women.

"Men of Parcell, if you lynch this man it will be the darkest blot on yourselves and the town of Parcell."

That is all right, sheriff," shouted one of the mob, "but we must protect our wives and daughters from black hounds."

The sheriff pleaded with the mob, saying the negro would be given an instant trial and that there would be no chance for him to escape. After the sheriff had concluded the officers were led to the court house, presumably to confer with some of the leaders. As they entered a room in the building the key was turned in the lock and the officers were held prisoners until the negro was dead.

Cheer as the Negro Dies.

Cheers came from the crowd as the flames licked the victim's face, and men and women in motor cars watched him die. As he was lashed to the pole the negro shrieked for mercy. After the flames died down the crowd slowly dispersed. The negro's body was burned to a crisp.

BEATTIE DIRECTS DEFENSE

Takes Sudden Interest in Trial and Assists His Attorneys

HE SEEMS CHEERFUL

In Yesterday Afternoon Session He Laughs at Some of State-ments Made Against Him.

Chesterfield, C. H., Va., Aug. 25.—With Paul Beattie, the star witness for the state's attorneys, who are fighting to send Henry Clay Beattie, Jr., to the electric chair, scheduled to take the stand today, the calm eyed prisoner assumed personal charge of his own defense.

Seemingly confident that y directing the energies of his lawyers, Smith and Carter, he can improve his chance for life, the man accused of wife murder today started to work out the details of his defense.

He sat between Attorney Smith and his aged father making brief notes on the testimony and suggesting questions to be asked in cross-examination. He planned to concentrate his attack on Paul Beattie.

Chesterfield, C. H., Va., Aug. 25.—On the anniversary of his marriage to the woman he stands accused of murdering Henry Clay Beattie, Jr., sat in the stuffy courtroom yesterday heard seven witnesses called by the commonwealth give testimony on which the prosecution hopes to send him to the electric chair.

On the courthouse lawn only a few feet away, stood the blood soaked automobile in which the young wife met her death. Beattie himself calmly inspected the car when it arrived and not once during the proceedings did he show any signs of blanching. Twice during the cross examination of two detectives he flushed with amazement and struggled to hold back his laughter.

Of the seven witnesses examined, two are physicians, Dr. Herbert Mann and Dr. Wilbur Mercer, who examined Mrs. Beattie's body on the night of the murder. The others are Thomas Owen, a court stenographer and uncle of Mrs. Beattie; Detectives Wren and Wiltshire of Richmond, who investigated the case; Coroner Loving of Chesterfield county and May Stewart, a stout, middle-aged woman, who told of Beattie's associations with Beulah Binford.

None of the witnesses except Mr. Owen recalled that Beattie had displayed any grief over the tragedy. Others said they had not seen him shed a tear.

With the first witnesses called merely to establish the death of Mrs. Beattie their testimony was largely a review of what came out in the inquest.

May Stuart swore to being the proprietor of a resort in Richmond and that Beattie had appeared there with the Binford girl four times within the two months preceding the murder and for the last time on July 17 the night before the crime. Beulah Binford, she testified she had known for several years.

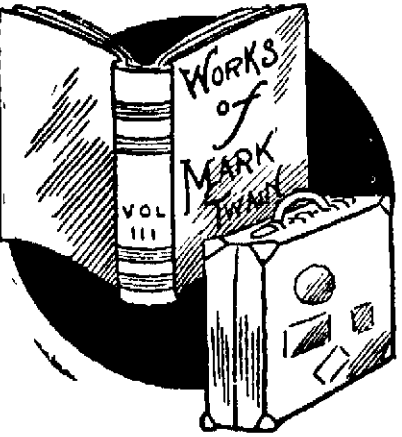

After having witnesses describe how Beattie and his 17 year old companion had visited her place the commonwealth introduced in evidence a letter written by the defendant to the Binford girl and identified as such at the inquest. Penned on his father's business stationery, Beattie wrote in part:

"Dear Kid—Pay this on the furniture and make him give you an itemized account of what you must pay each week. Well, be good, with oceans of love brimming with kisses. Yours, "Hon."

The boy showed no emotion when the letter was read, but the elder Beattie held a palm leaf fan in front of his face.

WANT PURCHASE OF PRISON MADE GOODS STOPPED

Columbus, Aug. 25.—The Ohio Federation, through its secretary, Harry D. Thomas of Cleveland, has asked the new state board of administration to investigate the report that Ohio state institutions are buying goods, principally wearing apparel, made in the prisons of other states. Thomas says that his information is that the state is buying the prison made goods through a Columbus firm. President Thurman has promised an investigation. He said today he wanted to talk with Thomas about the abolition of contract labor in the Ohio penitentiary.

A DINNER GOWN WORN AT MONTE CARLO.

This graceful costume, worn by a well known French woman at Monte Carlo this season, attracted much attention both because of its pleasing color and its exquisite grace of drapery arrangement. Embroidered black net is draped over dull sage green satin material, the embroidery on the edge of the net being so heavy as to suggest a black border trimming. The overskirt effect, with a panel falling beneath and forming a train, is the interesting feature of this green and black gown.

F. E. Joyce, Misses Gladys Palmer of Columbus, Clara Fleming, Mabel Hughes, Nina Cartinal, Sella and Bernice Mears, Rev. R. C. Bowden of Hanover, Messrs. Harry Gutridge, Will and John and W. H. Hughes, Charles King, Carl Meyers and Lester Mears. The guests departed at a late hour, wishing Mrs. Wickham many more happy birthdays.

The Bridge party that was to be at the Country club this evening has been postponed till Thursday, September 1.

A number of friends surprised Mrs. Edward Parts, Wednesday evening at her home in West Church street, the event being her birth anniversary. Music and games were the main diversions. Luncheon was served the following: Messrs. and Mesdames D. C. Carney, William Lyle, Julius Juch and family, R. W. Young, Joseph Klima, Joseph Stock and son, Mrs. M. Stock, Mrs. D. A. Pryor, Mrs. Mary Joy, Mr. Leas Coons, Misses Clara and Madeline Riechart, Mary Pryor, Emeline Carney, Barbara Klimar, Mr. Ross Ford of Chicago, Ill., Belle Richardson of Mt. Vernon, Joe Ferguson of Shawnee and Gus Russell of Columbus.

Robert W. Kerr of Columbus and Miss Susan C. Bolton of this city were married late Thursday afternoon by the Rev. B. M. O'Boylan, at the parsonage of St. Francis de Sales church. They were accompanied by Mr. and Mrs. Frank A. Bolton. The party left immediately for Columbus where the bride and groom gave their wedding dinner at the Virginia Hotel. The guests from Newark were Mr. and Mrs. Frank A. Bolton, Mrs. Edward Miller, Mr. Lewis Bolton, and Mr. William Twigg. In Columbus the party was met by Mr. and Mrs. Grant Shaw, Mr. and Mrs. Emmett Cook and Mr. Beebe. After the wedding dinner the bride and groom left for a short wedding trip and on their return will make their home in Linwood avenue in Columbus. Mr. Kerr has retired from active business and has large holdings in the Bremen oil fields.

Honoring her guest, Miss Esther Stickney of Beverly, Mass., Miss Frances Wright entertained with a beautifully appointed tea, Thursday afternoon. Between the hours, four and six, about fifty young ladies called. The spacious rooms were beautifully decorated with many flowers, both cut and potted. She was assisted by the Misses Martha and Mary Sherwood Wright in the dining room, where delicious refreshments were served. Tea and coffee were poured by the Misses Louise Noppell, Hazel Altschul, Marion Welant and Sara Seymour.

Miss Grace Fulton is entertaining with a dinner of pretty appointments this evening at her home in North Fifth street, in honor of guests from out of the city.

Miss Harriette Lake informally entertained Wednesday evening in honor of her guest Miss Edith Starkey. Games were enjoyed and dainty refreshments served.

Miss Alice Patterson pleasantly entertained the Sewing and Reading circle Wednesday afternoon at her home in East Main street.

Delicious refreshments were served the members: Mesdames O. E. Seward, Dussy, Charles Seward, Lee Fleming, R. L. Burch, C. L. V. Holtze, C. Wendelken, Striggens, O. T. Briggs, T. W. Foust; the guests were Miss Elizabeth Kreig and Alice Holtze of Frazeeburg.

The members of the Country club will entertain with a dance Tuesday evening.

Mrs. W. T. Moore was hostess to the Thursday Bridge club, on the club day this week at her home in Seventh street. The souvenirs were awarded

Mrs. H. B. Anderson, Mrs. Carl Dayton and Miss Lillian Miller. At five o'clock a dainty lunch was served the members and guests, Mrs. Clayton and Miss Josephine Roche.

SAGE TEA WILL DARKEN THE HAIR

Restore Faded and Gray Hair to Natural Color—Dandruff Quickly Removed.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance they made a brew of sage leaves and applied it to their hair, with wonderfully beneficial effect.

Nowadays we don't have to resort to old-time, tiresome methods of gathering the herbs and making the tea. This is done by skilled chemists better than we could do it ourselves and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing sage in the proper strength, with the addition of sulphur, another old-time scalp remedy.

The manufacturers of this remedy authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

Delmonico's Corned Beef Hash—Take equal quantities of chopped corned beef and cold baked potatoes, mix well and season highly with salt and pepper. Grease the sides and bottom of a spider or thick-bottomed pan, put in the hash, put on the side of the fire until thoroughly heated. To one quart of the mixture, take on-half of a cupful of milk, pour it over the hash and put in a hot oven for twenty minutes. Turn out and serve.

Baked Chicken and Rice—Clean and cut up a chicken as for fricasee. Season each piece well with salt and pepper. Butter a baking dish, put in the chicken, add one tablespoonful of finely chopped onion and fill the dish with boiled rice. Pour over this sufficient rice soup stock to almost fill the dish and cover closely with a rolled paste of flour, salt and water. Bake for two hours in a slow oven. Remove the crust before serving as it is only used to keep in the flavor.

HEALTH HINT FOR TODAY.
The Liver and Digestion.
In laying the foundation for a
good complexion one must see
that the liver is healthy, the di-
gestion good. Good digestion is,
of course, essential, that the
body may receive its proper
nourishment. The ill nourished
person is thin, anaemic, the eyes
are hollow, the cheeks sunken,
the lips pale, the skin white.
Indigestion is a foe to a good
complexion.

NEWARK IN 1819.
In another column of this newspaper
today appears a quotation from a book
published in the year 1819—nearly 100
years ago—referring to Newark and
Licking county.

Ninety-two years ago Newark's popu-
lation was 400. The town consisted
of 70 dwelling houses, eight stores, a
Presbyterian meeting house and a
court house of brick. Forty years ago
Newark's population was less than
7,000. Twenty years ago Newark had
over 14,000 people. This number was
increased to 18,000 by 1900, while the
census of 1910 showed a population of
25,404. Newark is a growing, prosper-
ous city. The next decade will
witness greater growth and develop-
ment than any preceding period of ten
years has shown.

The reference to the Newark of long
ago is interesting and it will be read
with special interest by the older in-
habitants. Perhaps garrets or out of
the way places contain books or old
time newspapers that will throw fur-
ther light upon the Newark of long
ago. If such documents should appear
the Advocate would be pleased to see
them.

The world do move. A State prison
is in process of construction at Joliet,
Ill., so arranged that every cell will
have a window facing the outside
world. There will be open bars in the
front of each cell, so that one guard
can see each man in an entire block.
Sanitary conditions are to be the best
that can be found anywhere, with the
old style slop bucket system entirely
done away with. Cells will have plenty
of light and will be cleanly, thus
practically eliminating the dangers of
tuberculosis or other diseases con-
tracted through the dampness of an
ordinary cell. Not only inside com-
fort for prisoners is to be considered,
but provision is to be made for out-
side employment for convicts at farm
work with a view to self-support as
well as improved health conditions.

Australia has prohibited the ex-
portation of the plumage, skins or
eggs of native birds.

OUR BUSY CONGRESSMAN

Congressman Ashbrook, who reached
his home in Johnstown Thursday, will
not get much rest during the time
until the next regular session meets
in December. During the entire extra
session just adjourned Mr. Ashbrook
was pronounced by Washington cor-
respondents as the busiest man in
Congress. This was by reason of the
fact that he had been made chairman
of the committee to investigate the
expenditures and workings of the
Postoffice Department. The duties of
the position were placed upon our
Congressman without his seeking, be-
ing an assignment for an amount of
all-work that no member coveted.
During nearly all the time of the ex-
tra session Mr. Ashbrook's investiga-
ting committee held two sessions per
day, and numerous witnesses from all
parts of the country were examined.
Mr. Ashbrook's competent stenogra-
pher, Mr. Ernest Cornell, is the sec-
retary of the committee and rendered
invaluable service at all the hearings.
Mr. Cornell will return to Washing-
ton in a couple of weeks to keep open
the committee's rooms for the con-
venience of the correspondence. Mr.
Ashbrook will hold sessions of the
committee at St. Louis, Chicago, and
other western cities during the vaca-
tion of Congress, so as to gain as
much information as possible when
the next session meets in December.

**DEMOCRATIC
ACHIEVEMENTS
IN CONGRESS**

For the positive measures of the
extra session of Congress just closed
the credit of the initiative belongs to
the Democratic majority of the House
of Representatives. Among these are
the Publicity bill, the admission of
Arizona and New Mexico and the new
apportionment of members for the
next ten years. As chairman of the
Committee of Ways and Means Repre-
sentative Oscar Underwood of Ala-
bama, ably seconded and sustained by
Speaker Clark, has amply justified the
confidence of the Democratic majority
and of the country. The failure of the
moderate measures passed under his
judicious leadership to relieve the
people of intolerable tariff burdens is
due to the arbitrary vetoes of a vacil-
lating President and to partisan mi-
norities little exceeding one-third of
the membership of the houses of Con-
gress.

But these tariff bills, though baffled
by capricious vetoes in the interest of
the Trusts, have blazed the way for
the Democrats in Congress next De-
cember. Then should the revision of
the Payne-Aldrich bill schedule by
schedule be baffled by arbitrary exer-
cise of the veto power the appeal will
lie with the great court of public
opinion in the elections for Congress
and President in 1912.

To the Republican party, struggling
against a rising tide of anti-tariff sen-
timent, the President threw Canadian
reciprocity as a life-preserver. The Re-
publican party spurned it, but the hu-
mane Democratic party made the life-
preserver fast. That the President
will be able to draw his party out of
the wet, however, is exceedingly
doubtful. There is every indication
that the party will drag the President
in, instead of the President dragging
the party out. In order to square him-
self with his party the President has
vetoed bills that he should have
signed. The country expects more re-
duction of the tariff than it will get
by way of Canadian reciprocity, and
it is clearly bent on electing a Presi-
dent and Senate that will not thwart
the efforts of the present House.

TIME'S CHANGES.

In childhood, when my works were aching, my granny doctored
me; she held my nose and kept me taking boneset and ginger tea.
Then soon departed all the colic, the anguish and the pain, and I
went forth to sport and frolic, till I got sick again. And thence-
forth all the kids were treated by granma in their day; they swallowed
yarrow tea superheated, and sickness slipped away. But now the world
is so enlightened, we peer at granma's dope; at old time remedies
we're frightened, the surgeon is our hope. The surgeon comes with
saw and cleaver, he comes in sombre garb; he gives us tea to cure
our fever; he scorns the ancient yarb. He tells us that some cog or
ratchet has slipped in our insides; he cuts us open with a hatchet,
and all our works divide. He hews us with his gory axes, till, with
expiring sigh, we sadly ask him what his tax is, and then curl up
and die.

DIGGING TWO CANALS.

Methods Employed at Suez and Those
at Panama.

Forty years ago I watched the work-
ers on the Suez canal. Many of them
were girls, digging up the sand with
their bare fingers, scooping it into the
hollows of their hands, throwing it
into the rush basket each had woven
for herself, lifting the baskets to their
heads and carrying the load of twenty
to thirty pounds a hundred feet up the
bank and dumping it.

Panama excavation is being done by
steam shovels. Recently I watched
one of them at work. The fingers of
the Egyptian girl had grown into a
thousand times larger steel claws that
dug and scraped the shattered rock
and dirt. The hollow of the girl's
hands had developed into a scoop con-
taining two cubic yards, or 5,000
times as much as her two hands could
hold. The rush basket had grown into
a train of flat cars. The shapely
arm of smooth flesh coffering muscle
and bone had grown into a great beam
moved by chains, flinging great loads
on to the flat cars, and instead of the
100 feet of walking long trains ran
perhaps twenty miles to dump the
load. Development by men of a woman's
method—Harrington Emerson

BOARD OF REVIEW ASKS FOR CORRECT TAX RETURN OF ALL PERSONAL PROPERTY

Our appeal to the taxpayers of this
city to voluntarily come to our office
and correct their returns has not been
in vain but most gratifying. It
demonstrates beyond a doubt that
most people are honest and that our
citizenship is always responsive to a
fair and just appeal. When the assess-
sors called on people to list personal
property, many of them seem to have
thought that money and merchandise
could be offset against debts. For this
reason their returns are incorrect.
Nothing can be offset against debts,
except credits. Many are now cheer-
fully complying with the law in this
regard and are correcting their re-
turns. As a result thousands of dollars
are being daily added to the duplicate.
Remember that all property this year
must be listed at its true value in
money and no penalties can be added
thereon, but it will be the consistent
policy of this board next year and

thereafter so far as possible to detect
and bring out all hidden wealth. We
will not get all this class of property,
'tis true, but who can doubt that the
legislature at its next session will
provide the means whereby all the
hidden wealth will be revealed? Is it
reasonable to presume that real estate
owners, banks on their capital stock,
railroad corporations and other great
public utilities will stand without re-
sistance an assessed valuation at their
true value in money and permit in-
tangible property to go unlisted
simply because it is deposited in some
financial institution or otherwise con-
cealed? Boards of Review have author-
ity to get at this class of property and
what authority they now lack, if any,
will be remedied by the next legisla-
ture. So come in now and help boost
Newark to the smallest tax rate of
any city of its size in Ohio.

THE BOARD OF REVIEW.

DIEGEL

(Continued From Page One.)
estimate of the state attorneys, much
stronger than the Diegel-Andrews
case upon which he was convicted.
These two additional indictments
include Senator George C. C. of
Dayton, and Senator Isaac E. Hoff-
man, of Oxford, jointly with Mr. Die-
gel, and it is predicted that if the
latter does not avail himself of the
opportunity for salvation offered by
the Court and the prosecution both
the remaining indictments will be
brought to trial and Mr. Diegel, if
convicted will be given a maximum
sentence of 15 years.

Senator Hoffman is to be placed
on trial as soon as the next term of
Court convenes and if he is convicted
it will bear out the positive state-
ments of the state that the Diegel-
Andrews case was the weakest of the
"dictagraph" crop of indictments,
and the Hoffman conviction if it
comes, will operate to all intents and
purposes, says the state, as another
conviction for Diegel, although the
latter will have to be formally placed
on trial before he could be convicted
and sentenced.

Mr. Diegel has been made aware
of these facts, and though, he still
maintains that he knows nothing of the
defense is keeping him under surveil-
lance, and, it is said, he is manifest-
ing signs of weakening. It is posi-
tively known that he made an uncon-
ditional promise Monday to Attorney
General Hogan, Prosecutor E. C.
Turner and Judge E. B. Kinkead that
he would make a clean breast of all
he knows, this being the sole and only
reason for postponing the end of
the court term, since it was desired
to await the return of Attorney Egan
who will assist Mr. Diegel in prepar-
ing his confession.

Maintains Solid Front.
Interest remains at high pitch in
the case in political and legislative
circles here, and there is a wonderful
amount of speculation as to the final
outcome of the present situation. The
defense and those interested in it
stolidly maintain that there is nothing
for Mr. Diegel to tell, but that he
will gladly go on the witness stand at
any time because there was nothing
wrong in the general assembly.

AMUSEMENTS

Wishing to relieve theatre goers
of this city of the fault of most stock
companies that of presenting plays
of similar plots and lines each night,
the management of the Auditorium
has selected a list of attractions for
presentation by the Nancy Boyer
players next week which are sure to
please. The bills are chosen on their
entertaining merit and are of such
varied types that a visitor of every
show will find the last as entertain-
ing as the first.

To make the bills more complete
and attractive, expensive scenery and
costumes will be used. Especially ex-
travagant is the wardrobe introduced
throughout the engagement, Monday
night, "Merely Mary Ann," Eleanor
Hobson's bright comedy will be the
offering. From the prolific pen of
Israel Zangwill, author of "The Mel-
ting Pot," "Children of the Ghetto,"
and other high grade successes, The
production of this play at popular
prices is but another step upward in
the plan of Nancy's management to
give the very best to be had in the
dramatic market at what they term a
sensible price.

HOT-WEATHER DYSPEPSIA

It is a well known fact that it is harder to digest cold food than warm food,
and as most of the food eaten in hot weather is iced, a great amount of diges-
tive suffering results. It is well to be careful about what you eat in hot weather,
and not to over-eat, but it is more important
still if you are suffering from indigestion to
have it cured promptly. It is hard enough at
best to bear up under terrible heat, but when
the stomach is loaded with food it cannot digest and the bowels are clogged
with decaying matter, the whole system becomes congested. You become subject
to headaches, colds, fever, constipation and a dozen and one ailments that make
life a burden. Take a few doses of Dr. Caldwell's Syrup Pepsin and you will
find immediate relief and in a short time a permanent cure. It will cleanse
the stomach and bowels and give your system a new start. Appetite, good
spirit, sound sleep and energy will soon return and your dyspepsia will have
vanished. The cost is only 50 cents or \$1.00 a bottle, and there is sufficient
for you and your family. A TRIAL BOTTLE FREE OF CHARGE can be

OFFICERS ARE ELECTED BY THE INSTITUTE

CLOSING SESSION OF ANNUAL MEETING OF COUNTY EDUCATORS HERE TODAY.

Diplomas Presented to Teachers by Secretary of Ohio Reading Circle—Round Table Talks are Omitted This Morning.

At Friday afternoon's session of the Licking County Teachers' Institute the following officers were elected: President, L. C. Brown of Johnstown; Secretary, Philberta Hutzell.

Executive committee, Flora G. Hoover of Granville. The last day of the Teachers' Institute drew a large crowd in spite of the rain. The Institute has been a success in every way, the lectures being of the highest class and very instructive, and all of the teachers have given the best of attention to all of the talks. The Round Table discussions have been very interesting every day as in this way the teachers get a good idea of how the other teachers teach the various studies.

At 9 o'clock Friday morning Miss Sells opened the meeting with a piano solo, after which the Rev. F. E. Vernon led in devotional exercises.

The "Appreciation of the Vision of Sir Launfal" by Dr. Green was splendid. He pointed out the greatness of Lowell, the writer of this poem, its interesting history, the curious construction, and the certain features to be noted and its many characteristics. In conclusion he ended by bringing out the sacredness of this beautiful poem.

H. W. Emswiler, secretary of the Ohio Teachers' Reading Circle, presented diplomas to those who have completed the work necessary for securing diplomas, which were to the following: Oma Horton, D. B. Grubb, Lena Griffith, C. G. Lawrence, H. E. Eswin, Nettie Cullison, Lola Boom, Georgia Taylor, H. W. Emswiler, Susan Guthrie, Nellie Smith, Edith M. Link, Nora Graves, Ethel Butte, L. C. Brown, Grace Edwards, Scott Kreeger, Arlington Mead, W. E. Teagarden, Enile Redman, Walter Howell, O. L. Dushelmer, Charles Case, Ilo Bunell and Amos Baughman.

The Round Table topics had to be omitted, owing to the shortness of time. The next and last address by Dr. Green was given this morning instead of this afternoon as published, in order to enable him to leave early to deliver a lecture in another city this evening.

The subject "Wireless Messages for the Teachers" was characterized into three divisions, namely, "Important business, close attention, and hearty response." His talk was full of suggestions for the teachers which will greatly benefit them in many ways. He touched on the necessity of good health, to overcome evil with good, knowledge and gladness, and to permeate all of these thoughts with brightness.

Informal Reception to Delegates on Lawn Thursday—Bible and Mission Study Continues.

Granville, Aug. 25. — Interest in the proceedings of the big conference of the Young Women's Christian Association, which is being held here, is reaching high tide, and all the sessions are being largely attended. The conference has among its speakers a number of the most eloquent and talented men in the country, men who are thorough conversant in all things likely to come up in a meeting of this kind. The conference has also brought men who are interested in everything to Granville many notable young women who are interested in everything that will tend to the benefit of young womanhood and young manhood, and all humanity.

The conference is having much in it that is profitable, and much that is being enjoyed. Granville has extended a most cordial welcome to these young women during the past week. While they are here for the purpose of deriving instruction from the different lecturers, they are not missing any opportunity for having a good social time, and to many it has been a sort of vacation—perhaps the only outing many of them will enjoy during the summer.

The principal features of the conference during the day are the Bible Classes and the Mission Study classes. The Bible classes are held daily, except Sunday, from 8:30 to 9:30 a. m., and the Mission study classes daily except Sunday, from 10 to 11 o'clock a. m.

The Bible classes are divided as follows: For Freshmen and Sophomores — Parables, Miss Sarah Kirk, religious work director Y. W. C. A., Des Moines, Iowa, Burton Hall, room 3; Psalms, Miss Belle Morrill, religious work director Y. W. C. A., Rochester, N. Y., King Hall, room 1.

For Juniors and Seniors: The Epistles, Miss Ethel Cutler, student secretary, National Board, Recital Hall; Mark, President G. A. Reeder, Baldwin University, Cleveland, Gymnasium; The Earlier Prophets: Rev. Ambrose S. Bailey, First Baptist church, Akron, O., Stone Hall, Room F.

The Mission classes are as follows: The Decisive Hour of Christian Missions—Miss Harriet Taylor, secretary foreign department, National Board, Recital Hall.

India Awakening, Miss Alice Van Doren, Missionary South India, King Hall, room 1.

Unoccupied Fields of Asia and Africa, Mrs. Fred Gilbert of New York City, chairman Publication Department, National Board, Stone Hall, Room F.

The Uplift of China, Miss Helen L. Thomas, educational secretary National Board, Burton Hall, room 3.

Rural Problems, Rev. Charles O. Bemis, McClellandtown, Pa., Gymnasium.

At present there are 208 enrolled in the Bible classes and 197 in the Mission study classes. A Self Government committee of the students has been appointed, of which Miss Moore of Denison, is the chairman. This committee has many duties to perform, chief of which is keeping quiet after 10 o'clock p. m.

A Recreation committee has also been appointed. The duties of this committee consists chiefly in planning stunts for the social diversion of the students. Already a tennis tournament has commenced and a big picnic was planned for Friday evening at the beautiful Spring Valley, but owing to the inclemency of the weather this will hardly be held at this time.

At 11:15 o'clock a. m. a technical hour is set apart when the presidents of the college association and the heads of the various committees meet for counsel with the leaders.

One of the most pleasant things so far in connection with the conference was the informal reception held on the lawn, where all the leaders of the conference stood in line and the delegates were introduced to them as they passed by.

Thursday evening the Rev. Thomas R. White, pastor of the First Presbyterian church of Bloomington, Ind., preached a most able and instructive sermon on "Christ's Call to His Disciples."

This evening Robert E. Lewis, secretary of the Y. M. C. A. of Cleveland, who has been for some years engaged in Y. M. C. A. work in Shanghai, China, will give a missionary address on "Shanghai."

The Department of Conventions and Conferences of the National Board of Y. W. C. A. conducts in the course of summer ten conferences, at which about 4,000 young women are present. They are as follows: Eastern Student, Silver Bay and Easter City, Lake George, New York; Capitola, Cal.; The Breakers, Washington; Cascade, Col.; Eureka Springs, Ark.; Asheville, Central City, Geneva, Wis.; East Central Student, Granville, O.

How We Lose Our Nerve Force, With Consequent Lack of Energy and Efficiency

We Americans are living at a too rapid pace. We work too hard, worry too much, eat too much, dissipate too much, and exercise in the open air too little. This saps and destroys the supply of nerve force.

This results in our drainage and digestive organs becoming clogged. We lose our appetites, can't sleep soundly, have bad dreams. We become irritable, have mental depressions, fits of temper—can't concentrate our minds, become fatigued—have no energy, etc.

Nature's remedies, of course, are cessation of our injurious habits, proper diet, plenty of fresh air and exercise. This requires will power, patience and time—but Americans can't wait—they want immediate relief.

Some people resort to alcoholic stimulants and to narcotic drugs. These are not only dangerous, but the reaction is sometimes more to be dreaded than the disease.

Morse's Glycerole

is, without question, one of the greatest aids to nature, in correcting all nervous troubles with prompt certainty and without ill after effect—that has yet been discovered.

A single 50 cent bottle will satisfy the most skeptical of its virtues. A few bottles (depending upon condition of patient) will tone and invigorate any debilitated system. It calms and strengthens the nerves, revitalizes and infuses new vigor, new strength and new life into impaired systems.

MORSE'S GLYCEROLE may be taken by the most delicate persons—feeding infants, convalescents, the aged—with absolute safety and with positive assurance of benefit. It is purely vegetable, scientifically blended by Mr. Hazen Morse.

The prescription is by an eminent Toronto specialist in nervous disorders. It is non-secret—the formula is printed on each bottle label—has been prescribed by hundreds of physicians for thirty years in the United States, Canada and Great Britain.

DRUGGIST'S GUARANTEE

Every druggist selling Hazen Morse's preparations has been instructed to guarantee absolute satisfaction or refund the purchase price, and charge to his account.

Mr. Morse knows from his experience of more than a quarter century, in compounding remedies exclusively for the medical profession, just what this wonderful sedative tonic should accomplish, and from his thousands of physician customers, what their experience have been—therefore, he feels that he is justified in guaranteeing satisfactory results to all new patients.

T. J. Evans is the distributing agent for Newark and vicinity. If your dealer cannot supply you, the above druggist will, on the terms specified above. Prices 50c and \$1 per bottle.

Morse's Dypnopepsia is another high-grade remedy. Dyspepsia, Indigestion, Gastritis, Loss of Appetite, Sour Stomach and Intestinal Complaints. Prices 50c and \$1 per bottle on guarantee.

THE NEWEST IN WATCHES

A good watch is one of the most important requisites of the man and woman of today. It's an age where we must be on time and the only way to accomplish this is to carry a reliable time piece. The old fashioned big watches are too cumbersome and the up-to-date person must have a "Verthin" the famous Swiss watch.

It's the thinnest and smallest watch made and is thoroughly reliable. Haynes Bros., the jewelers, at 8 North Park, have a great variety of these watches ranging in price from \$18.00 up. They also have all the better grades of American makes of watches. The old fashioned gold dial of our grandfather's has been revived, as well as the old antique pendants.

There's a wide variety in the designs of the fobs, both in metal and silk, and the safety attachments on all of them make them quite secure. 23-25-28

Bed Bugs and Roaches simply cannot live where "GREEN DEATH" is used. It poisons the air they breathe, and they can't get away from that. Sold by all druggists. "Quarantine" buys a pint can with patented squirt top.

GOOD RAIN MAY SAVE MUCH MONEY

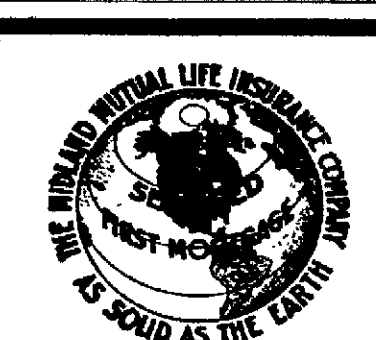

The heavy rainfall which reached Newark Thursday evening and continued all of Thursday night and Friday, seems to have been general over the entire eastern and central states. It has been a steady, easy rain, the kind that always results in a soaker, and it has been of incalculable benefit to the farmers of the county, worth thousands and thousands of dollars. Not only will pasture be benefitted, but late corn and vegetables of all kinds, will take on new growth. The farmers are well satisfied with it.

Packey McFarland's Secret for Fatigue

We are not all pugilists and so cannot remain in the pink of condition all the time by exercise. But even as great a pugilist as Packey McFarland becomes exhausted once in a while, and his method of restoring his nervous energy is not by hardening his muscles but by using the very same method which thousands of men and women are using to-day.

Packey's secret is really no secret at all. Here it is, in his own words: "While training I at times become fatigued and find splendid use for Make-Man Tablets, as I found them, from personal use, the best tonic I have ever used."

Any man or woman who will try Make-Man Tablets for building up the nerves and purifying the blood (and we all need it at least once in a while) will find them the most effective tonic ever offered the public. They enrich the blood cells, infuse the starving "vital" nerves with the natural strength they need. For Nervousness, Insomnia, Rheumatism, Kidney and Liver Trouble, Make-Man Tablets have no equal. The first box will prove it. Free sample sent on request, Make-Man Tablet Co., Dept. 15, Chicago, Ill. Sold at 50 cents a box and recommended by Evans Drug Store, Warden Hotel Block.

The Camel Carries the Arab's Goods

Daddy's Bedtime Story

Why the Camel Wears a Hump

THE circus parade had passed the house that morning. The children had admired the animals very much.

"The nicest animals of all were the camels," said Evelyn as she crawled into bed. "Funny little brown men in white nightgowns and white caps rode on the camels. The camels stepped along so nicely I am sure I could ride a camel."

"Ah," said daddy, "the little brown men were Arabs, men from Arabia, a country away across the ocean where there are miles and miles of sand such as you see at the seashore. Across this sand the Arabs could not travel if they did not have the big strong camel to take them safely over."

"What are those humps on the camel's back?" asked Jack.

"Well, they are lumps of fat that keep the camels from starving when they have to go a long time without food. The Arabs have a story which they tell about the camel's humps. They say that all camels were once a tribe of men who lived in the desert. Mohammed is the prophet whose teachings are followed by the Arabs and many other people who live in the far east. The camels at first were Mohammedans, or believers in the teachings of Mohammed. By and by, though they didn't care about Mohammed, they said they guessed they knew about as much as Mohammed. Then, say the Arabs, Allah, or God, was angry. He said the camels must learn meekness and good temper. Their behavior had been so bad that they were not fit to live as men, so he changed them to animals and said they must be animals until they are sorry for their naughtiness. The Arab tells his children that the humps on the camels' back are the sins which he must carry thus to keep them always in his mind. When the camel, groaning and objecting, kneels to have his load strapped on his back the Arab says that this is so the animal may learn to be more meek and humble. When the camel roars and moans and tries to bite those who have charge of him the Arab shakes his head and says that it is a pity, but the old evil has not yet worked out of the camel's heart, and it may be a long time before that camel can be changed into a human being again, as Allah has promised they shall be when they have learned to be good and accept the teachings of their prophet Mohammed once more."

"They will miss the camel when that time comes, for the camel is their most useful servant. His flesh provides the Arabs with meat, his hair with cloth and his hide with leather. The little Arab children are brought up on camel's milk, and they are as sturdy and happy a set of youngsters as you can see in all the world."

An addition is being built on the rear of the Davies store and the basement is being fitted up for stock. The improvement will enable Mr. Davies to carry a much larger stock of goods and to better handle his growing trade.

Mr. Fenberg in Canton. George M. Fenberg manager of the Indiana and Grand Theatres at Marion, Ind., for lessee O. G. Murray, has just been transferred to the management of the Orpheum theatre, at Canton, Ohio, also owned by Mr. Murray and a member of what is known as the Orpheum circuit. The change is in many respects a promotion for the popular manager who so successfully managed the Marion houses and who was formerly located in Newark. The Marion papers speak highly of Mr. Fenberg who leaves for Canton, Aug. 27.

FOND OF ELECTIONS.

In Switzerland They Select Even Gravediggers by Ballot.

According to Professor F. F. Roget of Geneva, the Swiss have the greatest political intelligence in the world today.

"Every citizen of a canton is a Swiss citizen," says Professor Roget. "One must become a member of some local commune to become naturalized and in order to do so must be accepted by the local communal council."

"Every male Swiss citizen is an elector from the age of twenty, there being no property qualification. Every Swiss is a soldier and every soldier an elector. The federal elector may vote wherever he may happen to be, guarantees being taken that he votes only once."

"The cantons are the political units, and no elector may exercise political rights in more than one canton. On moving from one locality to another the Swiss must wait three months before he may exercise the franchise in his new neighborhood."

Professor Roget declares that "every collective authority in Switzerland is elected."

"The foreigner," he states, "is often surprised to see in a Swiss newspaper on a Monday the results of all kinds of elections on the Sunday. If he had gone into a polling booth on the Sunday he would have found in this corner a clerk at a desk, at which the elector would vote for the local schoolmaster."

"In another corner would be a desk at which he would vote for the local judge, in another part of the same room he would vote for the local gravedigger, and so on through a whole series of officials, all of whom are popularly elected."

"The result of this training is that the political intelligence of the Swiss is extremely developed, and that he thoroughly understands what he is voting about at home in his native country, and that when he goes abroad he finds it very easy to understand and to take part in any political movements among which he may find himself."

A Sinecure. General Horatio C. King, on one occasion narrating some war memories, said:

"We suffered many hardships on both sides, but the poor, brave Confederates suffered most. I remember a grizzled old colored man who at the outbreak of the Spanish war applied for a place as an army cook."

"What experience have you had?" the old fellow was asked.

"I was cook, sah, for a Confederate regiment in sixty-fo'!" he answered—"that is, sah, I had the position of cook, but, to tell the truth, I didn't work at it."

"Why not?"

"There wasn't nothin' to cook, sah."

Doctors in Russia. Dr. Ralph Thompson, in Medical Europe, states that "in Russia nobody ever asks a physician the amount of his bill. It is universally understood that a gentleman pays his doctor a fair sum—such a sum as he can afford to pay within the limits of his income and his sense of generosity. The Russian mind cannot conceive how a man engaged in the holy pursuit of saving life and alleviating suffering can put a price on his services."

After this it is not surprising to learn from the same authority that Russia is the only European country of importance where the medical profession is not overcrowded.

The City of the Dove. When mighty Ann went to conquer Egypt he camped on the east bank of the Nile opposite Memphis, that great twenty miles long capital of mud bricks and whose mud brick houses have all vanished. Ann crushed the Egyptians and came back to get his camp to move over and occupy Memphis. A dove had built in the folds near the top of his tent. Blood bathed Ann, the ruthless, would not let her be disturbed. A new city started about his tents. It is today Cairo. Memphis is only a name.

His Flag Was Up. When the crowd assembled for their game of ball Johnnie, the pitcher, was missing. Jimmie was sent to investigate.

"Is Johnnie at home?" asked Jimmie of the sister who answered his knock.

"Course," answered the sister. "Don't you see his shirt on the line?"—Success Magazine.

SEVENTY DWELLINGS IN YEAR 1819

OLD BOOK FOUND IN AKRON DWELLING TELLS OF THE "POST-TOWN OF NEWARK."

A "Bloomery" Was One of the Industries and Beds of Iron Were Discovered at That Time.

That practically a century ago Newark was already recognized as an important Ohio town and the center of a prosperous agricultural community is proved,—if proof were necessary—by a rare copy of an old book that has just been brought to light in a garret at Akron where it had rested, dust covered and undisturbed, for more than three quarters of a century.

The book is a copy of the "Ohio Gazetteer and Topographical Dictionary," published in 1819, by one John Kilbourn, a resident of Columbus. It contains a description of every Ohio county, town, lake, river, mine, etc., as then known and provides an interesting basis for a comparison of busy, bustling Newark today with conditions that existed when Ohio was an infant state and considerable portion of it was still referred to as "Indian Country."

There were then no railroads. The telegraph was unknown. If any one in that day had predicted the aeroplane and the wireless telegraph he would probably have been consigned promptly to a lunatic asylum. The canals had not yet been constructed. Travel was by stage coach, horseback, on foot or aboard the few pioneer steamers that were then appearing on the great lakes and the larger rivers. Much of Ohio was still covered with virgin forest. The population of the entire state was not more than a quarter of a million and one of the objects of the Gazetteer, as explained in the preface, was to circulate it in the eastern states and thus encourage emigration to what was known as the "far west."

Many of the present important counties had not been erected and towns of high standing today had not been founded. Cleveland was not mentioned among the chief towns and Cuyahoga county complete contained but 2,500 inhabitants.

The following quotations from the Gazetteer are those that refer specifically to Newark and Licking county. No doubt they include many facts not known to the people of the city and county today:

"Newark, a post town and seat of justice for Licking county. It is situated near the confluence of the principal branches of Licking river, 26 miles west by north from Zanesville, 28 north by east from Lancaster, and 23 east by north from Columbus. It contains a Presbyterian meeting house and court house of brick, eight stores, 70 dwelling houses and 400 inhabitants.

"Licking, an interior county, bounded on the north by Knox, east by Muskingum, south by Perry and Fairfield and on the west by Franklin and Delaware counties. It is 39 miles long from east to west and 24 broad from north to south, containing 700 square miles. It is divided into the 14 following townships: Newark, Granville, Newton, Licking, Union, Washington, Bowling Green, Hanover, Monroe, Franklin, Madison, St. Albans, Hopewell and Bennington. It likewise contains the towns of Newark, the county seat, Granville, Johnstown, and Fairfield. The population is 6,400 and the valuation of property 1,122,618 dollars. The greater part of the county of Licking lies well for cultivation. The soil is extremely fertile and the innumerable ramifications of Licking creek through every part of the county render it, perhaps, one of the finest watered parts in the state of Ohio; and affords the greatest opportunities for water machinery of every description. Extensive beds of iron ore have been discovered in this county and preparations are now making for erecting several furnaces, forges, &c. A bloomery, for the manufacture of bar iron, has been in successful operation here for several months past. The iron made is of excellent quality."

STEEL MARKET IS UNSTEADY THIS WEEK

Cleveland, Aug. 25.—The Iron Trade Review today says:

The market on financial steel products has been spotty during the past week, steel mills, finding the mills fairly good one day and bad the next. The total volume of business has been hardly been up to the average of July, but on account of the heavy bookings late in July, the mills have been able to maintain the heavier pace of production already inaugurated. Production this week is at practically the same gait as last week. The relatively high bookings do not cause any uneasiness to the steel mills, because it is recognized that this is the height of the vacation season, and a resumption of buying on a more liberal scale is confidently expected for next month. A more serious feature of the situation is the fact that the heavier operation of the steel mills has not produced any firming up in prices, and steel mills appear to be just as ready to shade prices now as they were two or three weeks ago. There has been very little shading of prices on plain shapes, but there is no question that many contracts for fabricated material have been taken in the past few weeks at prices which would not a loss to the fabricator, if based upon the full mill prices for the plain material.

RAILWAY AFFAIRS.

New Baggage Rules. Under the new baggage rules adopted by the Pennsylvania Company the following changes have been made with regard to the shipment of the dead. Under the new rules is embodied a regulation relieving the escorts of corpses of which watchfulness and anxiety accompany the corpse in transit. Under the old ruling, the escort was required to purchase a full fare ticket, whether a child or adult, and at any transfer point reached enroute, or when a new conductor boarded a train, the escort had to display his full fare ticket and explain that he was accompanying the corpse. The new regulation reads that "the escort when purchasing ticket at the starting point, shall tell the ticket seller that he or she is the escort of a body and that the ticket seller shall inform the fact upon the ticket, which when presented to the baggage master, will be checked as excess baggage and the duplicate check given to the escort. Thus, when a transfer point is reached the baggage agent will know by the excess baggage check the name of the escort and he will be relieved of much care. In a case of necessity he also will have a duplicate check to show his responsibility."

ROBBERIES CALL FOR MORE CARE.

Baltimore & Ohio conductors are urged to be more careful in noting the conditions of the seals on freight cars in their care. In a recent bulletin an official says: "It is evident from the police department reports of car robberies on the Midland district that conductors are not looking at seals when merchandise cars are picked up along these as closely as they should. I wish conductors to closely examine the seals on merchandise cars when picking them up, especially the cars leaving Columbus."

GRANVILLE

Granville, O., Aug. 25.—A called meeting of the village council and the Board of Public Affairs was held on Thursday night for the purpose of taking action on the death of Mayor E. J. Barnes and passing resolutions of respect and also of sympathy for the members of the family in their bereavement.

Messrs. Burton Case of the Board of Public Affairs and Mr. Rusler of the Council, were appointed a committee to provide a floral tribute for the deceased and F. L. Ferguson and John Thomas of the council and W. A. Mitchell of the Board of Public Affairs were appointed a committee to draft suitable resolutions pertaining to the death of Mayor E. J. Barnes.

It was decided that the members of the Village Council and the Board of Public Affairs attend the funeral of Mayor E. J. Barnes in a body on Friday afternoon.

Barnes Funeral Today.
The funeral of the late Mayor Ernest J. Barnes, who died at his home on Main street, this place, on Wednesday morning at 10:15 o'clock after an illness extending over a period of many months with anæmia,

DR. E. J. BARNES.
Mayor of Granville, Whose Funeral Was Held This Afternoon Under Masonic Auspices. Burial at Granville.

took place Friday afternoon, and was under the auspices of the Center Star Lodge of Masons, of this place, of which he had been a member for many years. The services were held in the Baptist church at 2:30 p. m. and were conducted by Dr. C. J. Baldwin, pastor of the church, in the presence of a large number of relatives and friends. The village officers turned out in a body. The interment was made in the beautiful Maple Grove cemetery.

Gets Good Position.
Prof. J. R. Clements, who has been the efficient superintendent of the Granville public schools for the past four years, and who is a man of recognized ability, has been elected superintendent of Grand View Heights near Columbus. Grand View Heights is a very wealthy suburb of Columbus and pays a much better salary than the one he received in Granville. In connection with his work there the professor will take a law course in Ohio State University.

K. of P. Picnic.
Notwithstanding the inclemency of the weather, the picnic held by the members of Altamaha Lodge, Knights of Pythias, and the ladies of Arbutus Council Pythian Sisters, at Cat Run, on Wednesday was a decided success. There was a large crowd in attendance and a day brimming over with pleasure was participated in. The Granville Cornet Band and the Welsh Hills Band furnished delightful music during the entire day.

Mr. and Mrs. James DeFrance and daughter, who have been visiting Mr. and Mrs. William De France and family southwest of the village for a short time, have returned to their home in Pennsylvania.

Luscious home grown watermelons are now on the market. The dry weather seems not to have had any effect upon the favorite fruit, unless it tended to make it sweeter and more delicious.

Mr. and Mrs. F. B. Lucas and daughter, Mary, of Bellefontaine, O., who have been visiting relatives and

To The Women

Some women are just a trifle timid about going to a bank to transact business. And why? Simply because they are not familiar with the rules of banking. This shouldn't be so, and, indeed, this isn't so with those who come to this bank, for we aim to make every transaction so clear and so plain, that dealing with a bank soon becomes to them an easy habit.

We appreciate the patronage of women. Their business with us is already large and steadily increasing. If you are not now a patron, then please consider this an invitation to become one.

MET DEATH IN ACCIDENT IN AN ELEVATOR

JOSEPH DUKE, FORMERLY OF
NEWARK, LOST LIFE IN A
HOTEL AT HAVANA,
CUBA.

Was Once a Bookkeeper in Office of
Natural Gas Company—Mrs. Du-
ment Receives Word in Tele-
gram.

Sad news was received in Newark Thursday evening telling of the death of Joseph Duke in an elevator accident at Havana, Cuba. The particulars of the accident are not known. The telegram was received by Mrs. Wallace Diment from friends in Wellsville, N. Y., where Mr. Duke formerly lived for several years before coming to Newark.

The deceased was about twenty-five years of age. He received his education at Cornell. He came to Newark from Wellsville about four years ago and was employed for three years as a book-keeper in the local gas office. About a year ago he invested in a fruit farm in the Isle of Pines and accompanied by his wife, left for Wellsville, where he remained until last March, when he went to his farm. His wife remained with her mother in Wellsville. Mr. Duke had planned to erect a bungalow and his wife expected to join him there this fall.

Neither of his parents are living. His brother, James Duke, and sister, Mrs. Helen Applegate, are living in Wellsville. Mr. Duke was well known in Newark and the news of his death is a sad blow to his many close friends here.

FEET TIRED SO TIRED?

TIZ Makes Sick Feet Well, No
Matter What Ails Them.

TIZ acts at once and makes tired, aching, swollen feet remarkably fresh and sore proof.

It's the sure remedy, you know, for everything that gets the matter with your feet. It's for sore feet and for sweaty, bad smelling feet, and for corns, callouses and bunions, too.

"For years I have been troubled with sore and tender feet; suffered intense pains. Have had the assistance of physicians without relief. I bought a box of TIZ, which worked a perfect cure, as it has with a great many of my friends. I would not be without it. All it requires to be known to be universally used." A. F. Dreutzer, Chicago.

TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and glorifies the feet — your feet.

You'll never limp again or draw up your face in pain, and you'll forget about your corns, bunions and callouses. You'll feel like a new person.

TIZ is for sale by all druggists, 55 cents per box, or it will be sent you direct, if you wish, from Walter Luther Dodge & Co., Dodge Bldg., Chicago, Ill.

BEATTIE

(Continued from Page 1.)
the wound in Mrs. Beattie's head and both said that in their opinion her death was instantaneous.

Detectives Wren and Wiltshire went over in detail the scene of the crime in the early morning hours after the scene of the crime. Both insisted the bloodstains in the road could not have been made by blood dripping through the automobile and they were at a loss to explain how they came there unless the victim was out of the car.

Put Body Back in Car.
The Commonwealth pursued this line with a view to showing that Beattie shot her wife after he had knocked her down and then had lifted her body into the car.

Neither detective was an expert on automobiles, however, and both were easily entangled in cross examination by H. M. Smith, attorney for the defense. Finally Judge Watson said the matter of whether blood could run through the car should be determined by the jurors themselves by experiments with the machine itself.

Wren testified that Beattie was very cool as they went over the ground near the scene of the murder. The detectives described a stump at the roadside with tracks leading to and from it. Behind this the prosecution will charge Beattie concealed the old single barrel shotgun.

Bloodstained clothing was unrolled and passed among the jurors several times during the day. The prisoner watched the jurors faces carefully and appeared for more cheer-ful.

ALICE POTTS TAKES ACID IN A RESORT

SISTER FINDS HER UNCONSCIOUS
FORM LOCKED IN ROOM ON
WALNUT STREET.

Physician Works an Hour to Save
Woman's Life But Efforts Fail
—Funeral in Wellston.

Alice Potts of 120 West Walnut street, committed suicide at her home Thursday night by drinking two ounces of carbolic acid. No reason can be assigned for the deed. Friends say that up to that time she had acted perfectly normal.

At about 8 o'clock her sister Cora found her in her room, but she slammed the door shut and locked it. On obtaining entrance a few moments later she was found lying on the floor apparently dying. Dr. Stedem was called but all efforts failed and she died at 9 o'clock.

Miss Potts came to Newark about three months ago from Wellston, Ohio, where she formerly made her home. Two sisters survive her, Cora, who lived with her, and Maggie, who lives at Wellston. Three brothers, James, Edward and Perley are living at Wellston. She was a daughter of Harvey and Cecilia Potts, both of whom are living. On coming to Newark she assumed the name of Mahel McManaway. The body will be taken to Wellston Saturday morning where the funeral services will be held Sunday.

CAMPAIGN IS GROWING WARM UP IN CANADA

Toronto, Aug. 23.—With the election which will decide the fate of the reciprocity agreement still more than three weeks off, the fight in this great industrial and agricultural province of Canada has reached a point where practically everything else has been neglected in the heat of the political battle. R. L. Borden, leader of the opposition, has completed his Ontario tour, having delivered more than 30 speeches in constituencies considered doubtful, and will devote the rest of his time to Quebec and the maritime provinces, where his own seat at Halifax is thought to be in danger.

Premier Laurier will return to Ontario next week to speak in several rural constituencies. It is the farmers' vote, both sides believe, that is likely to decide the fate of reciprocity. Every voter in a farming community is considered important, whereas in the city nobody seems to care whether the voter exercises his franchise or not.

An unusual feature of the campaign is that Clifford Sifton, former Minister of the Interior in the Laurier Government, has come out against reciprocity. Mr. Sifton is a lifelong Liberal and was the Liberal member for Brandon in the session just dissolved, but has taken the stump against the issue favored by his party.

In some of the farming districts the failure of the Farmers' Bank, which cost the farmers of several counties hundreds of thousands of dollars, is being discussed by the opposition and may lose the Government votes. Before the charter was issued it is claimed that Finance Minister Fielding was notified of the character of those promoting the bank, but nevertheless the charter was granted. The alleged laxity of the Finance Minister is being used as an argument against the government.

HAIR FALLING OUT

Parisian Sage Will Stop It in Two
Weeks or Money Back.

Ask Evans' Drug Store about PARISIAN SAGE. They guarantee it to stop falling hair, itching scalp and put an end to dandruff in two weeks or money back.

Readers of the Advocate need not

hesitate to accept this offer, for it is genuine.

Since PARISIAN SAGE has been sold in America, it has become famous for its power to make hair grow profusely and quickly.

Not only that, but it nourishes the hair roots and puts vigorous life and radiant lustre into dull, faded hair, and for that reason is a favorite with women of refinement.

It kills dandruff germs, the cause of all hair troubles. The girl with the Auburn hair is on every bottle, 50 cents at Evans' drug store and druggists everywhere.

"OLD GUARD" WILL FEATURE LABOR DAY

One of the big attractions in Newark on Labor Day will be the presence in our city of Company A "Old Guard" of Columbus. This company, which is composed entirely of old soldiers, is coming to Newark on Labor Day, accompanied by a big drum corps of old soldiers and will take part in the grand parade. Company B, "Old Guard," of Newark, will be in the parade in their new uniforms, and will be led by a drum corps of 14 boys all attired in natty uniforms.

MORE FINES ASSESSED IN LIQUOR CASES

In the case of the State of Ohio vs. Charles Henry, charged with violating the Rose law, the defendant appeared in court entering a plea of guilty to the charge contained in the affidavit. The court fined the defendant \$500, being the second offense, and to be imprisoned in the county jail until fine and costs are paid. Upon recommendation of the state \$200 of the \$500 was suspended during such time as the defendant refrains from violating the Rose law.

State of Ohio vs. William Bergen, charged with keeping a place for the sale of intoxicating liquors in violation of the Rose law, the defendant entered a plea of guilty. Being the first offense the court fined the defendant \$200 and to be imprisoned until fine and costs are paid. One hundred of the \$200 was suspended during such time as the defendant refrains from violation of the Rose law.

State of Ohio vs. Vernon Patterson, charged with several violations of the Rose law. The defendant failed to appear in court and bond was forfeited in all cases.

In the case of Benjamin C. Quick vs. Frank Slabaugh, a suit in replevin, judgment for plaintiff.
